exe on your Windows machine and plug in your printer. Thats all. Printlock is a very powerful software application that is basically to your printer what your browser is to your web site. Find it here: I was suprised to hear that you are a Microsoft MVP! What do you do to earn that title? That title is given to me by my clients. I am a creator of applications and an advocate of the internet. So I work with many people to get their websites and e-businesses off the ground and running. The more I learn, the more I want to learn. So I come up with new ideas for website and e-business systems all the time. This in turn generates opportunities to take my clients new business ideas and turn them into reality. I have also created business systems that help people with their jobs.

For example, I help many technology companies with their direct marketing systems. I helped about 10,000 companies in 2005 send out e-mails to their customers. How did you get started in your career? My family has been in the computer business since the 1950s, so it runs in the family. I learned from my Dad and Grandfather about computers and the internet. I am a firm believer that you can have a great career from the comfort of your home. If you are willing to work hard, you can earn a lot of money. What were some of your initial goals? My goals are to help people learn how to program, to create products that they can sell online, and to create a life that allows me to explore my interests in technology. How do you manage your work life balance? I have a wife, three kids, and a dog. The kids play sports, and I am lucky to have enough time to enjoy all
