sniper elite v2 change language from russian to english on Android 5.0 Lollipop, it was a huge change. Sniper Elite V2 was recently released on Android, and while playing it, you're likely to need to change the language. The good news is that it's fairly straightforward. The best part? You don't need root or TWRP for it. Before you get started, you should be aware that while changing the language, the app does not work properly and in fact, may even crash. Changing the language won't hurt the game in any way. Follow the steps below to change the language in Sniper Elite V2. Step 1: Open the Android settings app. Step 2: Navigate to languages and tap it. Step 3: Choose your language of choice and tap OK. Step 4: After your language is set to English, you should be able to enjoy the game. As a heads up,

changing the language may have the effect of corrupting save files. If that happens, you'll need to restore your save to a clean backup or copy it to your SD card and re-install the game. Source: Android Central The nerdy version of my first ever serious gun fight was
