Chromebooks and Linux LaserJet printer driver download for windows 7 Please help me!! A: As far as i know you have no choice but to use the windows "solution". You probably can try to use this windows "solution" on a Linux system and if it works, it will work, if not, it wont. When you boot your computer you get to a menu where you can choose to boot into different Linux distributions. Select Ubuntu and you should get the opportunity to install Ubuntu on your computer. After installing Ubuntu, you should get the opportunity to install the Windows driver. This is where you go to the driver site in Windows and install the driver. Q: error in adding multiple entities in rest api Following is my input json data :

```
[{"id":1,"pName":"p1","pEmail":"p1@mail.com","pDescription":"desc"}]
```

```
[{"id":2,"pName":"p2","pEmail":"p2@mail.com","pDescription":"desc"}]
```

 Following is the entity I created and saved in database: @Entity public class Person { @Id @GeneratedValue(strategy =

```
GenerationType.IDENTITY) private long id; @NotNull @Column(nullable = false) private String pName; @NotNull @Email @Column(nullable = false) private String pEmail; @NotNull @Column(nullable = false) private String pDescription; public long getId() { return id; } public void setId(long id) { this.id = id
