pluck(:id) is not working but only returns [0,1]. How do I .pluck(:id) for all devices of this type? A: If you have a list of IDs, then you need to write the array of IDs. Salivary glands are frequently affected in long-term oral use of 5-fluorouracil (5-FU) for treating cancer, although the underlying mechanism is not fully understood. We hypothesized that the pathogenesis of 5-FU-induced salivary dysfunction may be due to aberrant immune responses. To examine this hypothesis, we investigated immune status in a mouse model of 5-FU-induced salivary dysfunction. The 5-FU solution was directly administered to the sublingual ducts of mice by intraductal injection for 6 days. The animals showed marked salivary dysfunction in the first 2 weeks after 5-FU injection, but thereafter their salivary flow rate gradually recovered. Flow cytometric analyses of cells infiltrating the sublingual gland showed that the percentages of CD4+IFN-γ+ Th1-type cells and CD4+IL-4+ Th2-type cells were significantly increased in the 5-FU-treated animals compared with those in the control animals. In addition, immunohistochemical analysis showed a marked infiltration of the 5-FU-treated sublingual gland by both CD4+ and CD8+ T lymphocytes. Moreover, IL-12 expression was up-
