So I know it's been awhile since I've done a recipe post and what better way to get back on track than with a recipe I learned a long time ago and that I've always wanted to make again but haven't yet. I have a tendency to just make things quickly and just as they come to mind, so this is definitely not a complicated recipe. However, it does take a little time to make the yeast bread. I am not in love with yeast breads but I love the results it's made. I make this bread every time I have leftover yeast bread. I feel I should probably share it before I make more! So if you've made your own yeast bread (or even if you haven't), make a batch of this bread. It's wonderful! Ribosome-inactivating proteins from the Tabernanthe iboga plant. One of the major compounds in the roots of Tabernanthe iboga L. (Apocynaceae) is Tabernanthoside A, which inactivates both bacterial and eukaryotic ribosomes. In the present study, the purification of Tabernanthe iboga plants from the resin through DEAE-cellulose chromatography, Sephadex G-50 chromatography, and two-step reverse-phase high-performance liquid chromatography yielded 32.5 mg of purified Tabernanthe iboga extract (TAE). These included 26.5 mg of purified Tabernanthe iboga agglutinin (TIA) that was inactive against both mammalian and bacterial ribosomes. TIA, however, readily
