```
(CGFloat)tableView:(UITableView *)tableView heightForRowAtIndexPath:(NSIndexPath *)indexPath { if (indexPath.row == 0) { return 120; } else if (indexPath.row == 1) { return 100; } else if (indexPath.row == 2) { return 80; } else { return 60; } } - (UITableViewCell *)tableView:(UITableView *)tableView cellForRowAtIndexPath:(NSIndexPath *)indexPath { static NSString *CellIdentifier = @"Cell"; UITableViewCell *cell = [tableView dequeueReusableCellWithIdentifier:CellIdentifier]; if (cell == nil) { cell = [[UITableViewCell alloc] initWithStyle:UITableViewCellStyleSubtitle reuseIdentifier:CellIdentifier]; } if (indexPath.row == 0) { cell.textLabel.text = @"test 0"; cell.detailTextLabel.text = @"test 0"; } else if (indexPath.row == 1) { cell.textLabel.text = @"test 1"; cell.detailTextLabel.text = @"test 1"; } else if (indexPath.row == 2)
```
