There are lots of great resources here to help you be the best editor you can be. Check out the related links below to start exploring. If I have multiple compositions and delete one, all tracks belonging to that comp should be deleted. However I have to create a new composition to actually delete it. If I don't, the comp itself gets deleted and the tracks stay in the existing comp. The Info panel allows you to do a lot of things, but I've found it's a pain to tweak. The only way to undo with the info panel is to first cut out a chunk of the audio. "What you're asking isn't possible. It would make the video unwatchable and there is no way to do that. If you want to do a quick undo, you'll have to convert that chunk to audio, which would affect the rest of the video." Adobe I am an Apple user and don't have the needed software to test the record session. Can anyone provide me with the info? I have all the LPCM information and the wave format. 1 Suggested Answer.
