Category:AutoCAD Category:3D graphics software Category:Windows graphics-related software Category:Computer-aided design software for WindowsDC Comics Writer: Geoff Johns Artists: John Romita Jr., Adam Hughes, Francis Portela, Shawn Martinbrough Price: $3.99 Publisher: DC Comics Rated Mature: 18+ Though it has been ten years since the United States' last superpower was overthrown, its former president, Corrupt Dad, remains a power unto himself. In order to restore power, Corrupt Dad has enlisted the help of The Lord of Crime, a crime lord with an army of super-powered criminals at his disposal. To make matters worse, the country's new president, a vigilante-like hero known only as the Dark Knight, has brought the Department of Criminology to his hometown to investigate an extremely violent crime wave. Now, the Dark Knight must team up with his childhood friends, the Justice League, to stop the criminals and restore order to their country. I really enjoyed this, and it was a nice refreshing change of pace. A post-DC Reboot event (having not read Crisis on Infinite Earths), it didn't feel like it took itself too seriously, and it actually made me feel like I was reading something that was more entertaining than it was educational. The artwork was beautiful, and the story was a very different take on the DC Universe. Yes, the final product feels like it's definitely inspired by a lot of comics, but the unique art design and relatively short run-time make this feel like an original concept. Plus, the story really made me think of the Batman television show, which we haven't seen for a while. I've always enjoyed Johns' work in general, but this was one of my favorites. I'm looking forward to reading his next project.Q: How to determine whether the location of a tab is within a ViewGroup using tab indicator? I have a TabHost and it contains a few Tabs. I have another ViewGroup called the "sub-tab container". This view group only has one view element, i.e. the TabIndicator. The TabHost contains a FragmentPagerAdapter and a ViewPager. The ViewPager shows the tabs of the TabHost and also
