Assassin's Creed 3 is the black sheep in the series, but is it really that bad? Here is my review. There are thousands of different gaming publications in the world, and I rarely look at their ratings. Usually I just read reviews and if I like them I play the game, if not I don't. I can't change anything myself, but that doesn't mean I can't judge. As a rule, I prefer not to read reviews of Assassin's Creed 3, but recently I decided to take a look at it. I won't say that I'm so disappointed, but it didn't bring me positive emotions either. How it all began? fffad4f19a
