A master manipulator she is even willing to push Ravi to the brink of suicide. In the midst of all this is Sohini (Amrita Singh), a girl who sees Ravi as the man of her dreams. When Ravi meets her, he falls head over heels in love with her. But when Roma finds out, she seizes her opportunity and kidnaps Sohini. How will Ravi react when he comes face to face with the person who has been taking his woman away from him? And how can he convince Sohini that she is his life's companion? Bawarchi: Directed by Sanjay Patel. With Kay Kay Menon, Tabu, Anil Kapoor. Bawarchi is obsessed with a girl, Uma. He is in love with her for a long time but does not know how to tell her this. He seems to have settled for the girl and is happy when he becomes rich through his friend's company. But soon he sees Uma talking with another guy, and in anger, he shoves her away. But soon he realizes that he wants to tell her the truth. Will he or will he not tell her? Ram Avtar: Directed by Shobhaa De. With Shilpa Shetty, Akshay Kumar, Sanjay Dutt. Ram Avtar is the son of a very poor farmer. He is a proud man who believes that only love can conquer all. But when his life goes through a series of unfortunate incidents, he starts feeling that the Goddess of Love is not on his side. Will he get his love and live a happy life? Khoobsurat: Directed by Pradeep Sarkar. With Himesh Reshammiya, Sushmita Sen. Khoobsurat is a romantic comedy which tells the story of twins. People do not think that twins are the same, but in reality they are. While one looks like a girl, the other looks like a boy. How will the twins' relationship be when they start discovering their differences? A facile method for electrocatalytic CO2 reduction on noble metals. This paper reports the first example of selective CO2 reduction on Au and Pt surfaces by the electrochemical oxidation of CO2 in the presence of NaOH in carbonate buffer. Electrochemical measurements showed that the extent of the electrochemical oxidation of CO2 can be controlled by electrochemical potential and
