02/21/2020 Hei @Karmelo can you send me your cnx-soft_lib_dir.tar.gz?? unpack it and change in the new_cnx-soft_lib_dir.tar.gz then use all you need from new_cnx-soft_lib_dir - JRE 8.0 - EMulator 25.0.2 - CnxSoft Lib_Directory: - and this is important: (maybe is the old version), don't need pwn dk 2.1. - and last you can get all the libs in your machine (try it first) old crack of cnx-soft - hd pack 2.1 keygen - EMulator 25.0.1 Q: Loading a webservice wcf on a separate thread and using it for further use I have an application which reads an xml file and then i use a wcf service to do some calculations on the data which i read in xml. Now i need the xml to be read on a separate thread as it takes some time. The problem i am facing is that i am not able to use the wcf service outside of the thread that reads the data. I don't get any service fault or exception, when i use it. I am using this on thread to read the data from xml public static string ReadFileData(string fileName) { XmlReader xReader = XmlReader.Create(fileName); string temp = ""; while (xReader.Read()) { if (xReader.IsStartElement()) { 2d92ce491b
