The light is off on the large spacecraft. A: I have a feeling it's about the "Combining the Two Universe" video. The background looks like the area of the ship where everything starts falling apart. Field of the Invention The present invention relates to a multilayer ceramic capacitor which can be made thinner and lighter while maintaining reliability and superior electric properties. Description of the Related Art In recent years, in accordance with the miniaturization of electronic products,

---

electronic components have been required to be made thinner and lighter. Among these electronic components, a multilayer ceramic capacitor is particularly thin and lighter and has been downsized to satisfy such a demand. Such a multilayer ceramic capacitor is thin and lightweight compared with, for example, a chip condenser mounted on a printed wiring board. Therefore, even when the number of electrode layers is increased
