References Category:Computer-related introductions in 2007 Category:Adobe Creative SuiteQ: How to deal with several different payment schemes in mule I am new to mule. I am currently designing a routing API for an API provider. They are requesting that I pass them a url to redirect to and if a user is sending the request to our provider the payment method should be "credit card only". They are also requiring that when "AIM" is in the URL that the payment method is "debit card only". I know that there is a global property called http.redirect.inbound.schemes 4bc0debe42
