¿ Create a sticky note?... Description: Time is money and the amount of money you spend on time is crucial. That is why when it comes to our precious time, we should always use it efficiently and invest our energy wisely. With Time Manager you can keep track of your time at work and at home, your time budgets and time commitments. Key Features: ● Unlimited time tracking, split in various categories and subcategories, and even sub-subcategories. ● Timesheets can be generated at any time, on-demand or scheduled. ● Timesheets can be exported in various formats such as CSV, Excel and XML. ● Mobile applications for iOS and Android. ● API for third-party applications such as service providers and applications to integrate with your business. ● Built-in alarm system for reminding you of your next time commitments. Time Manager is a smart time tracker app, designed to help you make the most of your time at work and at home. Take Control Time Manager gives you the ability to keep track of your time in a couple of different ways. You can choose from 3 different time categories: work, personal, and leisure. This app also comes with 2 sub-categories: paid and unpaid. The paid ones contain the timesheets of your clients and your personal obligations; the unpaid ones contain timesheets from personal time, such as your training and studying, and other leisure activities. Time Manager comes with a Time budget calculator which helps you understand how much time you have in each category and how much you spend in each category. If you want, you can add additional sub-subcategories for any category or time you wish. All the timesheets that you enter in your time-tracking can be stored in the account as well as exported in various formats such as Excel, CSV, and XML. Alarm System You can set up various reminders in Time Manager. These reminders let you know what you must do and when. Once you set up the alarm, you will receive a push notification on your phone, or a text message that reminds you of the alarm. You will also be able to check the alarm status online, anytime. Google Calendar Integration In addition to the alarm system, you can use Google Calendar to set up recurring events. Google Calendar will sync with your timesheets, and the recurring event will remind you every time to enter a new time. Social Networking Integration 1d6a3396d6
