REQUIREMENTS: Cracked Glow Air With Keygen is made for both 32 bit and 64 bit windows. 2011-12-19 20:49:51 Xaxis (or AY-sounds for short) is a sound effect generator. It was originally designed for the community game MOD, however, it's easy to use and can be used in any other sound related mod or game. A simple user interface with a list of effects can be seen at the top. Use the arrows or spacebar to switch the list. FEATURES: - An extensive list of effects (currently 16) - Different size effects to pick from (2 and 5 second loops are the most popular, but there are many others) - Loop length can be specified from 1 second to an infinite loop - Specify whether the sound will repeat indefinitely or only for the number of loops you specify. - Output format can be set to a single.wav file or a folder containing a list of.wav files. - Output can be set to a 16 bit or 8 bit file - Different samples are available, including both electric and electronic sounding samples - User friendly GUI with a dockable window and support for Windows, OS X and Linux - A side panel is available for browsing the effects, browsing the sample archives, loading files and for checking out the various settings - Support for custom.wav files (using AAC, MP3 or OGG) - The effects can be combined using complex algorithms or "how to" is available if you need some assistance - The.wav file can be loaded directly into your game - More effects to be added in the future, along with some cool new features NOTES: - There is some compatibility with MOD file format, meaning that the effects are loaded into memory and not saved into a.mod file - There is some compatibility with SMC files. - There are several sound samples, along with a readme file with some explanations for them. Feel free to browse them to see what's available and make something special. - There are several in game sample files included in the download. Use the samples to your heart's content. REQUIREMENTS: - You need a sound card that can output 16 bit sound and is able to play.wav files. - You need some sound editing software like Audacity or Audacity-Win. - You need a.mod file decompressor to convert your.mod files into. 77a5ca646e
