Course Description: CAESAR II Static teaches basic CAESAR II operations, model building and output analysis, with a focus on evaluating piping systems within .dwg files, with analysis of results in 3D. At each stage of training, 4 packages of exercises are built, each of which is based on one section of the course. Learning outcomes: The CAE Static program takes the user to a new level of proficiency in CA devices that generate telemetry data (SCADA). This is achieved by step-by-step development of the following tools: modeling of pipeline fittings; analysis of simulation results; calculation of electrical loads of pipelines; assessment of the effectiveness of automation systems; assembly of prototypes and simulation on a real pipeline. The program works with wireless equipment. Products included in the kit: - CAEA Static 1 - user manual; - Part 1 - User's Guide; Part 2 - Programming Guide; Part 3 - Application Guide; Part 4 - Management Guide; Price: 1750 rubles. (without VAT) including delivery. The entry was published on the site You can leave comments here or here
