
Emperor Battle For Dune Mods

Global mod for Emperor - Battle For Dune is being developed to improve the original in all aspects of the game. The game has not reached its full potential. And this mod did not become superfluous for me. It fixes some bugs and adds new items and features. Installation: Run the installer, install and then run the patch. The game will update. Mods: *All-Unknown-Stimulus-Meter* *All-Unknown-Stimulus-Meter* - The plugin adds an "omniscient" speedometer.
