Open Table - Free Download APK Get the latest dish recommendations sent straight to your phone, including updates for current dishes and favorites. Tata Elxsi Ltd It's strange to think that it's been ten years since I started the site. Ten years. I remember the first time I came across the Elmer Fudd character. It was on my Nokia 3310 when I suddenly realised the creepy voice was me! I was looking for images to use for the T-shirt template and came across this picture of Elmer Fudd.... The first few days of the site was pretty exciting. It was an exhibition where I got my first paid work – and it was just me! I didn't have a home – I was living with my sister – and the only computer I had was a monitor sitting on the study table. I wanted to create an internet presence – I wanted to bring my ideas to the wider world. I started using my laptop but with the limited connectivity and limited budget the site was limited to just a few people. I was a tester but the site was not tested. It was untested. Its one of my aims to do the site properly – it's not something I see as a hobby – it's something I see as a career. Not just a career – it's a life! Today the site is read by people in over 60 countries. I have met people from all around the world and I'm proud of that. Although I did work as a graphic designer. I started with a full time job – and then started my own business
