This was made possible by the use of lightweight, high quality sandwich panels, which are mounted on concrete rings. This type of wells has proven itself well where there are problems with sewerage. Typically, this technology is used to organize cesspools, sewer facilities, and also as a sewer pipe to connect the house to the central sewer network. Dome wells are an ideal technology for creating various interesting solutions, including decorative ones, which makes this type of well rings one of the most effective and practical solutions. It is very important in wells with domes to correctly mount the filter between the dome and the internal concrete wall of the well. This will help prevent clogging caused by various contaminants, and then pump out the well.
