Duplicate Files Locator Crack+ With Key Free Download [Updated-2022]

Duplicate Files Locator is a powerful and intuitive tool that allows you to detect and remove duplicated files from your PC. It finds duplicate files by comparing the exact content of the original file against that of the duplicate one. Features: * Scan multiple folders and files at once * Find common files like: images, videos, text files,.exe,.com,.php,.c,.h,.m files,.dll, etc. * Identify and mark duplicates with a color indicator * Display number of duplicate files, as well as their total size, name, original and duplicate location and format * Select any file or directory and perform a scan against them all * Specify a different comparison method for duplicate files * Undo the deletion of files, or replace the duplicates with their original * Open a file's original location in Windows Explorer * Clear the list of duplicates before performing a scan * Don't forget to include a review after finishing the duplicate files removal We have tested the application for more than two months, with no problems at all, using both Windows XP and Windows 7. System requirements: * 1 GB of free hard disk space (RAM) * 1.5 GB of free RAM (minimum) * Windows XP/2003/Vista/7 (32-bit) All you have to do is select files and delete them with the click of a button. By opening the right-click menu you can open a file's location in Windows Explorer, undo deletion, as well as replace a file with a shortcut. CPU and RAM usage is low during Duplicate Files Locator's runtime, so the overall performance of the computer is not affected. Scan jobs are carried out in reasonable time, depending on the size of the target directories. We have not experienced any issues throughout our evaluation, as the app did not hang, crash or pop up error dialogs. Thanks to its intuitive structure and options, Duplicate Files Locator can be used even by novices.
