- All the icons come in a single flavor: PNG format;
- You can use this Icon Set with any dock application;
-

These icons were all crafted by hand to be exact replicas of the old Dock icons used in macOS Sierra and older OS version; • They are ideally suited for the Dashboard, Classic and Mission Control Dock; • Each icon can be used in the Dock application only once; • You can use the app without registration; • Compatible with iOS 11.4 and earlier versions.

----- What is a PNG Icon format?

----- A PNG, or Portable Network Graphics, is basically a compression algorithm. It is the same as other image format tools, like JPEG or GIF, because it is designed to reduce file size by compressing pictures. And since this format is quite popular and widely used, Apple bundles with all new Macs and iOS devices this kind of image. PNG has a different tag for every type of file. For example, the file extension "png" for PNG format files. So you can distinguish files of this type in your computer or on your mobile device. What Are These Icons Exactly?

----- File Icons. You can still see the file icons that the developers used to make sure that you can recognize the original application. Each icon represents the same item in the same color. As far as I

am concerned, this is the sole reason why I am providing these icons for free. In fact, I personally use icons like this in my own Dock. And to be honest, I don't find any difficulties with the image's quality. Personally, I don't have any issues with this kind of color scheme, not even with these small dimensions.

Application Icons. The files which I use in my apps on my desktop. They are a little bit bigger than the file icons, but this doesn't matter. The only reason why I am providing these icons is because you will be able to find them in the same directory as the old icons. And since they are the same, I can give them away for free.

Movies, Music and Others. You can see these icons used in all dock applications. As far as I am concerned, the file names that are used in these icons represent the same things in all dock applications. And again, this is the sole reason why I am providing them for free.

Movie Icon Pack 15 is a skillfully crafted collection of icons that provides you with a set of icon replacements you can use for your dock applications. All the icons that are included in the pack come a single flavor, namely PNG format. This format is used mainly by dock programs that will handle this particular file type for the icons of the apps they host. Every icon that is included in Movie Icon Pack is freely offered under CC BY-NC-SA 3.0 licence. Therefore, you are free to use, modify or distribute the content of the pack to the public. All the icons that are included in Movie Icon Pack are given without "loading-time" icons. This means that, as soon as you drag the icons to the application icons area of your dock, they are displayed with a freshly prepared path to the app icon. In case you choose to load an app icon, a "Loading" icon will be displayed in its place to let you know that the app is currently being loaded. Premium features In the paid version of the pack, you have the following benefits: Original visual styles for the app icons 32x32 version of every icon Ability to load icons from other

application types (e.g. from Windows, OS X) Ability to control the application which icon is shown when the app icon is being loaded All icons are provided in a different set of visual styles. This means that, when you choose to use a different visual style, the original one will be replaced by a new one. Since the style is changed, some of the app icons will become more white and light, while others will change in color. The original icon color, the transparency and the size of the icons are preserved. In order to make the icons look more prominent on dock app sections, they are increased in size. For each visual style in the pack, there is a 32x32 version of each icon. Download and activation instructions for Movie Icon Pack 15 After purchasing the premium license, you will be prompted to download the data file. The download file is titled "Movie Icon Pack 15.xlsx" and can be easily opened from Excel, or any other spreadsheet application. The file is intended for the WinZip archiver. Once you've extracted the pack to a directory, you will need to install it to the "User data" folder. This can be accessed from the start
