As Windows 7 still has plenty of unused space, Microsoft has decided to cut-down the ISO. Microsoft uses MB and GB units in size, which are actually different. MB stands for Megabyte, while GB is a unit that stands for Gigabyte. For example, the size of the ISO file above is 10.76 MB. The MB is: 10,76 = 1024 KB The GB is: 10,76 = 10,76,000 KB The ISO itself is 547,442,880 KB. 4bc0debe42
