Create Bitmap Fonts Create Bitmap Fonts Convert Bitmap Fonts Create Converts Bitmap Fonts Programs List: Bitmap Font Tools Photoshop GIMP FontForge Size: 45.3 MB Screenshots: A: GIMP has a built-in font editor: press F3, the "GIMP" menu and you'll find it. It doesn't seem to actually do bitmap fonts. There is also a bitmap font editor for Photoshop (fontlab), but the last time I used it, the type of font I wanted to edit was not available. A: Photoshop has the font designer and the Edit Bitmap Fonts dialog. These use the same font editing functionality as the Photoshop Type Designer. In addition, there is a Bitmap Font

Editor tool, available in the Tools panel. In the Edit>Extras menu, there is an option to save your work as a bitmap font, or export it as a photoshop document. The interface for this tool is extremely basic, but it does allow you to edit the font more or less as you would with a photoshop bitmap font. You would just create, modify and save a simple bitmap font design, and you will have a usable bitmap font, just with a different export method than the designer does.
