12.04 I have a.ts file that I want to encode using h264, but when I decode it, it plays for a few seconds and then something is wrong and "CleanES" is shown, error code = 1. I already tried to encode the file using other tools and they could not detect it. Does anyone know what codec is used in this file? It's not the known h264 codec. A: It's the h.264 bitstream format. The format is used in mp4 files and is just a container, it does not contain the video codec data. The software you are using probably decodes this container, but not the video data itself. Detection of markers of

malnutrition and dehydration in children with diarrhoea in the National Hospital of Niamey.

Diarrhoea is the commonest illness amongst children and one of the leading causes of death in children under 5 years of age. It has been suggested that children with dehydrated diarrhoea have a high risk of developing future mental and physical development problems. A study was therefore conducted to determine the relationship between dehydration and the development of malnutrition in children with diarrhoea. The children were recruited from the paediatric out-patient clinic of the national hospital of Niamey, Niger. They were examined within 3 days of the onset of their illness.

A clinical history was taken and physical and
