## What's New in the AutoCAD?

Dive into the details of the new graphic tools and functions to see the capabilities of each. In addition to new options in the ribbon and dialog boxes, see how to use graphic commands with new features for editing the text, shapes, and symbols that you use to add your graphic elements to drawings. Multicolor Charts and Graphs: A chart or graph includes multiple layers and you can use multi-color palettes with an unlimited number of colors in each palette. A new technique allows you to create stunning graphics with a single command. Text Wrap and Borders: The new text wrap and borders tools allow you to create a text border that automatically fits the size and font of any text you draw. Visio-like Drawing Tools: Draw with new visio-like tools. Easily zoom in and out of your drawings to see and edit what's happening in the details. Drawing Program Features: Convert to AutoCAD: The new Convert to AutoCAD feature imports and converts drawings and parts to AutoCAD 2019 from a range of popular drawing software. Export your drawings to a file format you can use in the latest AutoCAD version or other third-party programs. (video: 1:01 min.) Link to Versions: You can now link your drawings to older versions, so you can update your drawings without affecting your older drawings. Hiding Drawings: Save time and resources by hiding your drawings to work on other projects without unneeded clutter. You can also show or hide hidden drawings by clicking the Toggle Hidden button in the Find drop-down menu of the drawing tool bar. Ribbon User Interface: The new Ribbon user interface gives you access to every option and function for drawing and editing. You can now use your left and right click to navigate through the toolbars. Drawing Geometry: Automatic alignment and snapping for creating drawing geometry. Macro Recording and Editing: Save time and make complex tasks easier to execute. The new Macro recording feature lets you save a series of commands in a macro. When you execute the macro, the command sequences are executed one after another. Extended Drawing Filename Support: Save your drawing files with a maximum of 255 characters in the filename. AutoCAD for Office 2019: Improvements in general editing.
