## **System Requirements For ExecPad Basic:**

When creating a mission, remember that you can't do everything at once. It's ok to put something like a bulldozer at the beginning of the mission, but at the end you probably won't need it. You probably won't need a bulldozer. If you don't know what something does, or it's something new, google. Setting up a mission should take about an hour. Make sure that everything in the mission is modifiable, and that you can easily move and add buildings to the building list. Map type missions should take about 10
