Developed for the Opera platform, Urban Dictionary is a widget that allows you view the latest entries on UrbanDictionary.com. It can be easily installed and configured, even by less experienced users. The interface of the app is based on a small frame where you can check out the newest words added to the Urban Dictionary database. Clicking one of them reveals definitions and examples, in the same way the website does. Plus, you can check out the date and time when the entry was added, create a favorite list, send an entry to a friend via email, as well as open a word's entry directly in UrbanDictionary.com The lightweight widget does not put a strain on the computer's resources, as it runs on a very low amount of CPU and system memory. It has a good response time and didn't cause the operating system to freeze, crash or pop up error dialogs. On the downside, widgets are no longer supported by Opera, since the company has switched to extensions. In other words, Urban Dictionary shall not be receiving further updates, and it doesn't work on newer Opera editions. But, all in all, Urban Dictionary should please all users who are fans of the UrbanDictionary.com website.

5. Live TV for Sling - Mobile/Entertainment... Live TV for Sling is a complete solution for watching your favorite channel on the go. From anywhere, anytime you want, access live TV on your iPhone, iPad, iPod Touch or Android device with an Internet connection. Watch at home or on the go. Sunday, February 6, 2011 This week Sunday - Cheer on your friends! Dear Friends, I am doing so well. This is the most I have ever felt well in my entire life! So far I have only had one massive attack and it lasted a few days and was absolutely horrible. For it to take me this long to get over this horrible experience is just not fair! I am super proud of myself for not having another attack or even feeling like a low-sugar attack is coming! I just feel so

motivated and determined! I hope that I can continue this for the rest of the week! I am in the driver's seat and feel so good about myself and life! I am just feeling so happy lately and I am so happy about how I am feeling and what I am able to do now! First of all, I want to say thank you and congratulation's to the awesome ladies that joined our visit and contributed in such a GREAT way this visit! To end the week... Today, is a very special day. February 6th is National Popcorn Day! This day brings a tradition to a whole new level because this is the day that we celebrate the first known commercial batch of popcorn in the United States 09e8f5149f

A retrospective study of children treated for visceral leishmaniasis from July 1994 to June 1996 was conducted in Khokhrapar, Bhojpur District, eastern Nepal. Children were enrolled in the study if they had experienced fever with splenomegaly for more than two weeks. About 94 patients were enrolled. Complete cure was achieved in 38.8% (37/94). The clinical cure rate was highest in the first six months of treatment (43.2%). If patients were treated for three months, the cure rate was highest in the second month (46.9%). None of the patients had parasite clearance within the first month. After the first month of treatment, parasite clearance was

of the iPhone/iPad home screen. Turn on the "Lock Screen" option in Settings. This tweak will not work unless the "Lock Screen" option is set to On. Double-tap the home button to access the home screen. Tap on the app that you want to be full screen. Tap the full screen icon on the bottom-left corner of the app icon. Your app will fill your screen. If you don't see the full screen icon, then your home screen is set to a scale of 1:1. If you see a message that the "Desired Scale" option is not available, then your home screen has been set to a scale of 1:1 for several reasons: 1. Your device is locked. 2. You have turned on the "Compact Width"
