
Tlm 2.0 From The Ground Up Pdf 11

TLM-based methodology 11 2.1 Transaction-level modeling overview 11 2.2 . 2 SystemC: from scratch 1.2 Comparison of languages

Strictly speaking, Transaction Level Modeling (TLM) T1 is a transaction modeling language used to write code that implements the business logic of a system or part of it. Typically, this language is used by a developer to write code that implements transactions. It was originally developed as a transaction modeling tool. Unlike other languages of this class (such as BPEL), T1 allows you to write code that implements logical relationships between transactions.
