## How To Install Traffic Manager Cities Skylines

**Download**

For those who are impatient, here's a thread I posted to Urbanist about city-building tools. There is an official Steam Workshop for this mod and it is located here: This is the tool I use to build new islands of water and air to build new cities. I call this script "Build City Islands", and you can find it here: I use it a lot when I'm trying to figure out how to build a particular city type, and I find it invaluable. It is free for to use and provides you with all the tools you need to build whatever cities you desire. Here are some more useful tools: Here are the locations to download the tools so you can download, unzip and place all the files in the correct order. This is where you can download the tools and put them in their correct locations: Tools Folder: C:\Program Files (x86)\Steam\steamapps\common\Cities Skylines\Data\Tools There will be loads of files in here, but you need to install them in this exact order: Build City Island - allows you to build islands of water and air Looking for Cities: Skylines mods?
