Skulls and bones in a jar is a modern RPG which can be played by one person and running in a full screen window. You will have to build your character, who can be a male or female character. You will have to visit your relatives, manage your inventory and grow your skills. Our game uses the concept of the traditional game with hexagons and since the hexagon is easy to draw (don't be afraid you will not learn something) with a simple interface and simple graphics. The goal of the game is to discover the history of your ancestors and go far in a world where magic has returned. The world is divided into 5 zones with a dungeon at the end of the 5 zones. Most of the dungeons are decorated with fantastic skulls and bone structure and will contain fabulous gems and weapons to help you in your quest. The game world is full of legendary magic stones that can be found in dungeons. It is not a cruel world but if you are unlucky, you will meet people who will get you into trouble... It will be hard to resist your ancestors and you will have to travel through the worst monsters and attacks. There are only two hearts in the game. When they are reduced to 0, you will die. Skulls and bones in a jar is a free desktop application. The program is very light. You can easily run it on a PC without a powerful processor or with an old Pentium III.
