What's New In Riccicedricdesign Action Effects?

There are 7 Actions in this package, all of which are very easy to use, just select the one you like and click on it. It is not necessary to be a Photoshop expert to take advantage of this powerful suite of automated retouching effects. 1. Glow Effect Description: This package has 7 autotweaking functions that will enhance your picture without modifying it (at all). The package has a full set of retouching capabilities. The following items will have been applied to your photo: ⬜ A Radial Gradient that allows the use of several colors to model a photo. ⬜ Fixing of harsh shadows (or bright ones). ⬜ Intensification of the color, so the relative color tint will be different. ⬜ Modification of a blur effect, to create a soft image. ⬜ Fixing of bad exposure and general brightening of the photo. ⬜ A Halation effect to increase the depth of the picture and create the illusion of an object's depth. ⬜ Integration of photo shadows to create a more realistic and pleasant image. Programming note: The actions used in this package are independant of the original photo. This means that each time you run this package with a different photo, the application will automatically create a new action and all the retouching elements will be reset. This means that the actions can be applied to different photo formats and you can always reapply all the actions to a photo. 2. Sky Enhancer Effect Description: Applying this package will modify the photo to create a more pleasant and natural scene. This process will: ⬜ Enhance the image by the removal of unwanted details, using a customized radial gradient. ⬜ Soften the tone to make the picture more attractive and more pleasant. ⬜ Create a nice blue and calm sky image. ⬜ Fix the brightness using a Haze effect. ⬜ Remove any other defects and apply the Layer Mask. ⬜ Applying the Action will give you a very professional result. The implementation of this Action is a very simple process. The main work involves the application of a modified radial gradient, which will allow you to quickly enhance the sky of your picture. This Action is independant of the original photo. Each time you run the Action on a different photo
