What's New in the IPod- Gt;Folder?

Backup/restore iPod music files to your computer. This is a powerful program designed to back up/restore your iPod music content in one or more folders. The program will scan your computer's internal hard disk(s) for the specified path, saving the iPod music folders and all the files that are contained in those folders in your chosen destination. (of course, you have to manually select the destination folder, a custom path can be used) A word of warning: if you also backup your original playlists and song selections, you will lose your playlists and song selections after the backup. Please note that there is no support for iPod 4g/mini, you will get an error message if the backup is attempted. Version history: * For Windows XP, Vista, Windows 7, Windows 8, Windows 8.1 and Windows 10: The program is released as a 64 bit executable file. If you experience any problems with the program, please let us know, by sending an email to support@podcopier.net. * For Windows 8 and Windows 8.1: The 32 bit version of the program is offered as an update to the 64 bit version for those systems where the older 64 bit version of the program is not compatible with the Windows 8.1 operating system. iPod->Folder 1.1.1.0 Fixes: * Fixed a crash bug when cloning an iPod with an 80GB capacity. * Fixed a problem with the "Hide iPod Audio Files" checkbox. iPod->Folder 1.1.0.0 Features: * You can choose to backup the entire iPod content or only music in MP3 format, it's up to you! * Improved backup and restore performance. iPod->Folder 1.0.1.0 Features: * You can choose to backup the entire iPod content or only music in MP3 format, it's up to you! * Improved backup and restore performance. iPod->Folder 1.0.0.1 Features: * You can choose to backup the entire iPod content or only music in MP3 format, it's up to you! * Improved backup and restore performance. iPod->Folder 1.0.0.0 Features: * You can choose to backup the entire iPod content or only music in MP3 format, it's up to you! * Improved backup and restore performance. iPod->Folder for Windows 2.0 Features: * You can choose to backup the entire iPod content or only music in MP3 format, it's up to you! * Improved backup and restore performance. * Password protected access * Restore from a backup file * Select music folders when restoring
