(1) I created a Firebase project (2) Then I created a dummy app (3) Then I imported my firebase app project to Android Studio (4) Then I did a gradle sync (5) Then I click on Build->Deploy to TestFlight->Build and deploy But when I click build and deploy it shows an error saying Failure [INSTALL\_FAILED\_UNKNOWN\_REASON] But it gives a red triangle on Firebase notifications bar. If I have done everything wrong then please help me to identify it A: There is a problem with your Firebase project ID. Follow this guide and make sure you are using the correct Project ID and the Key you generated here I will recommend to you to create a new Firebase project and import your project (you need to only import project to Firebase).
