Diamond is a stylish and stylish font

---

which was designed by Wayne Schneider and has been made for two and one half years. A lot of effort was put into to make this font look perfect, such as a very skilled designer, or the team of translators, who researched other languages and tried to make the meaning the same and the spelling as close as possible. This font comes with the following

---

styles: • Block; • Gothic; • Italic; • Script; The directions for using it are all included in the.exe file.

Directory: Diamond is a free font designed by Wayne Schneider and made available to the public for free. You can use it to change the look of your paper and documents.

How to install: You can find Diamond in the Adobe folder you
