Red Call Recorder

*** NEW *** Version 3.11! NOW RECORDS outgoing calls too! (Not all phones will support this feature) Record outgoing calls from your PC with this handy program! Keep a "Record Me" log, which automatically saves the call, date, time and length, in MP3 format. What can you do with it: Can be used as a background program, with no annoying menu. You can listen to a message later or save it to file. You can use it to make a log of calls you wish to later study. It will save your time and money by making a timed playback of each incoming and outgoing message. You can "Look Forward" to any recorded message. You can "Create a Reading List" of valuable and important messages. You can use it to call people who are not accessible or on the move. Caller ID: Displays caller ID at the top of the screen. Erase-record: You can erase recorded calls. Erasing a recorded call will wipe the clock of the date time and length, not the MP3 file. Deliver: You can "Deliver" a message from your computer to a phone. You can also "Pause" a recorded message and "Resume" it again in real time. You can "Play" the message either in pause mode or real time. You can "Complete" a "Deliver" action. You can "Save" any message. You can "Save & Close" or "Save to file" a message. You can "Add Comment" about a recorded message. You can "Edit Comment". You can "Save Time" and "Duration" of the calls recorded. You can "Flag Call". You can "Change Timer" of the time it counts up or down. You can "Priority" of the call and check up to 3 calls at the same time. You can "Add/Remove Notes". You can "Re-Number" a phone number. You can "Create a new record" for the caller ID. You can "Dial out". You can "Dial out & complete"

Red Call Recorder Free For PC [Updated] 2022
