"Just took my test with Don and it was amazing! I cannot thank you enough for taking me through that ride with you and helping me pass the test. It was so amazing. I do not even think that I was in a rush but you took the time and explained everything clearly. The driving portion was an hour and a half and you explained everything clearly and did not give the test on a "high" or "low". Everything was plain and simple and easy to understand. I passed the test with flying colors and a 75% on the road test. I am not a mechanically inclined person and never had a lesson and this time around I passed without even thinking about it. Thank you again for your time, your dedication, and your knowledge. You made it so easy for me and honestly, I will not hesitate to recommend you to my friends." { "description": "Describes the WebPageCapture associated with a Story by its GUID, such as: * {{#crossLink "user"}}{{/crossLink}}*", "name": "storyWebPageCaptureLink", "in": "path", "value": "story.WebPageCaptureLink", "required": true, "x-intellij-html-description": "Describes the WebPageCapture associated with a Story by its GUID, such as: * {{#crossLink "user"}}{{/crossLink}}*" }Q: Django restframework urlencode single character errors I have a view which handles the creation of an url encoded query string for a url like this:
