## Brandons Timer Crack Activator Free [Latest]

----- Brandon Timer is an easy-to-use application designed to help you time your daily tasks and base your schedule around how long these tasks take you. Brandon Timer lets you know what time you need to stop to complete your daily tasks, and will warn you if you need to stop sooner than the preset time. For every task that you add, you can setup a custom alert sound or vibration so you know to stop after a certain time. You can setup up to 10 different tasks to time. Brandon Timer is a must have application if you would like to use your iPhone to keep track of how long each task takes and make sure you can meet your daily goals. Tasks can be grouped into categories so you know how long they take in total.

\*\*\*\*\* \* Tip \* \*\*\*\*\* Brandon Timer includes a full 6 different themes (1 of which can be customized) and will also allow you to customize your own theme. Using one of the preset themes will make Brandon Timer easy to use. You can see the time remaining on your tasks for every theme. You can also create a custom theme from scratch. When you first start Brandon Timer, you will be asked to create an account. This can be done by using your Facebook account or an email address. You will receive an email to your email address with a unique password that you will need to enter into the application to set your user information.

\*\*\*\*\* \* Known Issues \* \*\*\*\*\* 1) Since Brandon Timer is a new application, there are some bugs and features that may not be completely functional yet. 2) If you are using more than one theme in Brandon Timer, then the set date is automatically selected to be when you create the account, and not

---

when you select a theme. 3) Theme V1.1 is an update to the theme, which may not be fully functional. 4) Android version 2.3.4 and above is required to run this application 5) This application is designed to work with the iOS 5.0 and above and iTunes 10.1 or above. If your iPhone is running any lower than these versions, it will not work with the application. 6) This application is designed to work on any landscape orientated iPhone. 7) This application is designed to work in the background. So if you turn your iPhone into a speaker phone or use it as a Bluetooth device, it will still run. 8) Your time cannot be

### **What's New in the Brandons Timer?**
