The player animations have been updated to create a more fluid and responsive game on-field. New animations for crosses, headers, set-pieces, dribbling and feints have been created for a more realistic experience and a full range of player reaction styles. Coordination, ball control and player positioning have been improved, while tactical responses like pass patterns, build-up and pressing has been refined to create a more fluid attacking football experience. The introduction of micro-decisions, where players are able to make decisions at every touch, while reacting to teammates, opponents, ball position and weather will create more fluid gameplay. The movement system will be enhanced based on real-life player movement patterns, introducing faster, more powerful changes in direction and sudden accelerations. Players' momentum and collisions with other players will be more accurately represented by the physics engine. Player actions will be more tightly coupled to the pitch, creating more realistic on-field behavior. The pitch movement has been modified to represent the wider, grassier surfaces that are common in many major football competitions. The pitch dynamics will be more responsive to pressure and more reactive to touch. The Ball Physics have been updated to keep the ball on-field for longer and deliver the precision of a real football, while the new Temporal Velocity Differentiation creates a more realistic playing experience. Players will now use goal kicks in FUT Champions with more realistic ground speed, trajectory and energy transfer. The kick distances to goal have been adjusted to match the distances of the real-life game. The kick rotation speed has been optimized for longer distances, while goalkeepers will now use the 'Kick With Speed' command to rotate in shooting or diving motions when the ball is in a good position to score. Now Real Feel is enhanced, with all touch response and facial expressions improved, balls in contact with players react realistically and all physical interactions feel more authentic. The updates to The Arena create a bigger, more open pitch, introducing more space and the additional challenges of a wider pitch, while the dynamic weather conditions now consistently adjust to match the on-pitch action. The 'Matchday' update also includes new options in The Manager mode, where the player can now set more specific tactics, as well as coach individual players. Training and Squad Battles have also received an update to create a more refined experience. Based on real-life player movement patterns

What's new:

- **Ultimate Team Season 2015:** The Ultimate Team season returns in FIFA 22, with Season Mode, a fun and customizable way to improve your Ultimate Team. You no longer have to be playing football games to have an awesome-looking squad, as new player-centric content will enable you to directly improve your team by customizing your current players with limited energy and coins.
- **New Player-Centric Content:** Dozens of new items are being released, with new player-centric product bundles, special template items, and stadium items all making their way to the Ultimate Team, enabling you to put together the best-looking squad money can buy.
- **Improvements to the Tactical AI:** An entirely new, powerful AI system has been developed for Tactical, which now looks at the optimal decision for each player in your team. It now considers a broader set of factors when making decisions, which allows for more authentic in-game play and sets a new standard for the footballing AI in FIFA games.
- **Elite 11 -** A smorgasbord of Ultimate Team content that features all-new cards, items and items to replace those from previous seasons. The new Player Relations series of packs contains daily and weekly cards -- delivering unique gameplay that is not possible using existing items and cards. There is also a brand new Stadium items, Kit Series and Team Series for dream matches and unbeatable coach showdowns.
- **Other key content improvements** include the return of popular UCL fixtures, a brand new World Class Buso Stadium (more on this in the Bonus features), a new Tutorial (and the return of the old, in-game leaderboard tutorial) and lots of other improvements.

For most people, the FIFA franchise is just a bunch of numbers that look like this: 2.0.0.247. But FIFA is much more than that. If you're new to the game, FIFA is more than just a soccer video game — it is a story of triumph and tragedy, joy and sorrow, of friendship and rivalry. It's the largest sport on the planet and the next generation's game of choice. You'll see the best, fastest and most exciting players on the planet. You'll fall in love with the world's greatest clubs. As long as you can dream it, you can play it. FIFA is a first-person soccer simulation game developed by EA Canada and published by Electronic Arts. The game has been the number one sports game since its release in August of 2003, and is also a huge cultural phenomenon. In 2013, FIFA was played over 100 million times around the world, and the game has been played by over 500 million people. FIFA is "A football game for people who don't like football games," its tagline goes. And it succeeds beyond many sports games on the market. FIFA is one of the best-selling games of all time (more than 40 million copies sold) and it's also the most pre-ordered sports game in history. It's for people who love soccer but don't want to know what the hell that is. The best way to experience the FIFA series is to pick it up and play it, so if you want to become a football star, there's no better time than now. FIFA defines the foundations of the game. FIFA is soccer. It simulates the real football experience. You can take over players, and play as both teams, making decisions that affect the course of the match. You can select strategies and formations, you can call fouls and make substitutions. You can take control of your entire squad, and play however you want. It's all there for you to build your team to your tastes, but don't forget that at the end of the day, FIFA is all about having fun. The best way to experience the FIFA series is to pick it up and play it, so if you want to become a football star, there's no better time than now. You can also
