Players can now drive into, through and out of goal through wall-to-wall traps. The addition of multisport play further enhances the pitch-to-pitch gameplay. In addition, players have a smoother and more realistic running motion, thanks to the addition of the Dynamic Glide system. You'll notice how your player's feet are more realistic during a run, allowing the player to move with a more natural rhythm. Soccer-specific cameras have been added to the Matchday view, allowing you to get a better perspective on the action and capture more accurate angles, with additional variety of views and camera angles.
