It is a joint venture between Nokia and Microsoft with headquarters in Dallas, Texas. It was one of the largest and most recognized phone producers in the world for a..Q: Azure portal and Service Fabric error When I try to deploy a service fabric in the Azure portal, I get the following error: I have looked online and there is a lot of talk about this. But nothing concrete, I'm hoping some one here might have seen this before. A: This solved the issue for me. At the time of writing this post service fabric CLI 1.6 is not compatible with Windows Platform. Try to use Service Fabric CLI Version: 2.1 Quit Visual Studio Code. If you have installed Visual Studio Code, you can rerun the code from there. Otherwise, remove the Windows installation of VS Code and reinstall it. Reinstall VS Code. About this book In this volume of cutting-edge research, cutting-edge technology and, above all, cutting-edge conversations, leading scholars from a variety of fields discuss the immense impact of computers on our work, the nature of digital media, the social and political implications of new forms of communication, and the impact on new forms of learning and teaching. David Berliner (The Long Tail and the Fate of Print), Rebecca Carroll (Conversational Interaction), Beth Comstock (Beyond Geography: The Cultural Geographies of Networked Communication), Kim Comstock (Between Play and Performance), Luciana Gattone (Communication) and Susan Herring (Production of Knowledge: The Contemporary Story) challenge us to consider the continuing social, cultural, and material implications of the ever-expanding use of digital media in our lives. Some 1,000 additional pages! Review
