The Sims 3 is a life simulation video game. It was developed by Maxis and Electronic Arts, and was released on September 22, 2009 for Microsoft Windows. The Mac version was released on March 3, 2010. The game is a spin-off of the critically and commercially successful simulation game The Sims, and takes place in the town of Idyllwild, California. The player creates a character, who lives in a single-family home, with whom the player has to interact with other Sims. Depending on the player's actions, Sims will gain wealth and power and gradually become more famous. According to Electronic Arts, the game features several new simulation mechanics, including career, mood, and marriage. SimCity Social, a game developed by EA Mobile, serves as a companion application and online community for The Sims 3. There are over 130,000 HD videos available in The Sims 3, and players can upload their own created videos. Players can also create and share Sims 3 items. The Sims 3 runs on Microsoft Windows Vista, Windows 7, Windows 8, and Windows 10. It is also compatible with the Windows Server 2008, Windows Server 2012 and Windows Server 2016 operating systems. Release history Reception The Sims 3 was received positively by critics. The Mac version was praised for having a visual quality of the Wii, making the game

---

an improvement over the PC version. The Sims 3 was awarded "Best Simulation Game" by the Academy of Interactive Arts & Sciences in their 2010 "2009 Best of Year" Awards. The game received a 9/10 rating by the review aggregator website Metacritic. In the first quarter of 2010, Sims 3 was the number one best selling game in the United States. In the United Kingdom, the game was the number one best selling computer game on the market for the week ending January 7, 2010.

Downloads Popular Mods There are many mods available for The Sims 3. Popular mods include:

Sims 3 Pets, World Adventures, Studio Rollercoaster, and the Mac Gamer Expansion Pack.
