A: You could try downloading rars that are described as being supported on your particular model. For example, on a Huawei N5 note 5 manual you can see that the following is supported: [\$] huawei\_device\_name=Huawei y560-u02 huawei\_firmware\_file=rsrp\_release\_k.rar huawei\_update\_status=normal [\$] huawei\_device\_name=Huawei y560-u02 huawei\_firmware\_file=8951.oem.rar I'm not familiar with your model, so make sure to pay attention to the recommended download that is based on your particular model/firmware, or if you're using the correct firmware name you can also use this command: [\$] huawei\_update\_status=normal huawei\_device\_name=Huawei y560-u02 huawei\_firmware\_file=rsrp\_release\_k.rar If you're having trouble getting the file to work, you can also try the following (this is from In the case of the PIXEL: [\$] curl -sL "" | unrar x smart-pd.24.pdf In the case of Raspbery Pi: [\$] curl -sL "
