In the screensaver you can also choose a picture of your own as the second background. Fire and smoke Screensaver Description: * Real pictures of the Fire. * Animated smoke. * Choice of the second image: your photo or a predefined image. * Can be saved

## Fire Hands Screensaver [Win/Mac]

================================== You will be given a burning hand to represent your desktop. The speed and acceleration of the flames can be easily configured by clicking the 'adjust settings' button. If you're given a burning hand, please allow some time before

trying to adjust some of the flame's settings. The adjustment time may vary depending on your computer's performance, so please be patient. Some of the flame settings may be locked, which means they cannot be adjusted. Some of the flame settings can be locked to their initial settings, but some of the flame's settings can be adjusted. Click the 'share' button to quickly share your current screensaver with your friends by sending them an e-mail or copy/paste the link into a message. Some of the settings of the burning hand have a maximum value and cannot be adjusted further, so please be careful before you adjust some settings. Some of the settings of the burning hand can be locked to their initial settings, but some of the flame's settings can be adjusted. Some of the flame's settings cannot be locked, so please be careful before you adjust some settings. Extensions for Microsoft Windows: =============================== If you have a Windows operating system, you can install Fire Hand Screensaver by downloading the latest version of Fire Hand Screensaver from the Google Play Store ( or by clicking the button below. It will ask to install Fire Hand Screensaver from the Play Store. Please note that you need to have the latest version of the Android operating system to install applications from the Play Store. .*/ (function() { 'use strict'; if (typeof AppConstants === 'undefined') { AppConstants = { }; } var resources = { backgroundImageBucket: AppConstants.backgroundImageBucket, adBucket: AppConstants.adBucket, title: 'Fire Hand Screensaver', description: 'Nice Screensaver.Fire hand can be used instead of a mouse and it is customizable.', enableDarkMode: AppConstants.darkMode, enableLightMode: AppConstants.darkMode, b7e8fdf5c8
