What is the correct way to do this? Edit: I tried with more '/' in the route and some even more. A: A quick look at the documentation shows that each element of the array has to have the same number of slashes. "url.rb" get 'diary/:event_name' => 'diary#index' get 'another/:event_name' => 'other#index' The first matches The second matches A: In Rails 5, this is the correct code: #routes.rb get'some_route_path', to:'some_controller#some_action', constraints: { event_name: /^ 595f342e71
