InternetSurfboard (LifeTime) Activation Code

This application is a browser that acts as a lightweight and portable alternative to the popular Internet Explorer. It will download and install all needed files on your desktop and install shortcuts so that you'll be able to run the program immediately. It is a Windows only program. You can get online right after a fresh install of Windows, since it provides some default means of reaching the information superhighway. Chances are you don't want to stick to default methods, nor do you want a set of overwhelming features you don't necessarily use. In this regard, InternetSurfboard comes with just the right configuration for a comfortable, lightweight experience on the web. Stay connected to more pages at a time It can be launched right after installation, with the predefined homepage showing up in the application's main window. You immediately get acquainted with the general set of features, thanks to the simple design which relies on the basic structure, and layout of a web browser. This means the URL and navigation controls are found in an upper toolbar, with the rest of the space displaying content. To make navigation a comfortable experience, the application comes with tab support. These are created and removed at the press of a button, and can be arranged as you see fit by simply dragging them on the title bar. On the other hand, multiple application instances can be kept active at the same time. Extra tools, and bookmarks manager The browser starts up in the predefined home page every time. Although there's no option to launch it with previous tabs, you are free to change the home page. There's also a built-in bookmarks manager to make it easy to keep track of favorite websites, and those you frequently reach. Additional options help export content either as a picture, or HTML document. For in-depth analysis, the application lets you use several extra options to inspect elements, view source, evaluate JavaScript, render tree, and more. In conclusion Taking everything into consideration, we can say that InternetSurfboard is a practical, lightweight web browser which doesn't put a lot of strain on your PC, and provides the flexibility you need for comfortable navigation. Multiple tabs let you stay connected to more pages at a time, with the favorite manager saving all your frequently accessed pages. Download
