Twonky media server is an easy to use media server. With Twonky you can stream your music, videos, photos, and other media to any DLNA compliant device and access it from any of your DLNA compatible devices and OS (Windows XP/7/8/10 or MAC OS). You can also make your own Twonky playlist to play and organize your favorite media in a convenient playlist. Supports iPhone, PSP, Xbox, Apple TV, Android, Media Center, Media disk (USB/Firewire), Apple TV, Web server, etc. Twonky Media Server is a tool for storing, playing, and enjoying digital media files on a local network. It supports streaming audio, video, photo, and music files from one computer (server) to another computer (client). The server and client are running the same version of the Twonky Media Server software. A client is not required to purchase a license to connect to a server, but it is required to purchase a license to access online accounts. Installing a client does not install a license; the client must be registered to activate the client license and become an online user. Twonky Media Server - Stream Your Media to Any Device including iPhones, iPods, PCs, Playstations, PCs, Android, Apple TV, Windows Media Center, and on. From a Media server on a home network, to a Media center system at an office or the content streaming from a Media server to a Home Cinema. Streaming digital movies, music, photo, and other digital media files anywhere in the home network or outside the home. Twonky is focused on Media Streaming and Media collection. So is suitable for small office, home
