Other changes include the introduction of a new Camera Angle Control (CAC) setup featuring the new Wide Angle Lenses for better viewing perspectives and improved coverage with the camera angle, and new customizable camera angles as well as a new Focus Control (FC) system which can be toggled on or off at any time, depending on the situation at hand and the players actions. Robust Mode AI brings new intelligence to matchdays, including a new Defensive Sliding system to counter the effectiveness of passing and pressing football tactics as well as new animations for the ball carrier and players. Be a more efficient player with improved tactics and more options in the Game Plan Screen with the introduction of the Tactical Coordinate system, which allows you to create a "coach" for each of your players to give them instructions on the pitch. Pitch creation and renovation has also been vastly improved with introduction of new artificial grass technologies. New AI football tactics will also aid your team's defensive capabilities, improving clearances and more efficient positioning for pressing. FIFA 22 introduces unrivaled authenticity through the integration of real-world physics with the ball, which will create new and exciting gameplay situations. The new ball reacts dynamically to the player skill levels and physical attributes, resulting in a more challenging and rewarding matchday experience. With over 50 new players and over 800 unique animations, FIFA 22 improves overall gameplay by providing over 100 new authentic player attributes, which affect ball control and passing, and include new animations for all player actions. Seamless player-to-player communication, including improved Radio Technology, results in better and more realistic matchday communications among players as well as the referee. The pitch has also been re-tooled with the introduction of new artificial grass technologies which brings a higher level of realism with stadium visuals, sound effects and artificial crowds. The field of play has also been re-tooled to support players' increased mobility with run-and-bounce tactics, while defenders can more effectively cover their respective sides. Additional changes include the introduction of new Big Picture Edition and Gamepad support, new Player Card and Profile Views, and a redesigned HUD. With the arrival of Robust AI, new camera angles, and smarter player reactions, FIFA 22 builds on last year's momentum to make an even better FIFA experience. With AI guidance, a more immersive experience and unmatched authenticity

Fifa 22 (2022)

FIFA® is an action soccer game that captures the emotion and drama of the world's game. With FIFA 20, EA Sports introduced a brand-new ball physics system, True Player Motion, and new gameplay engine, The Engine, which revolutionized the way players move and interact. Now for the first time, fans can experience true player ball control, delivering a more realistic match-day atmosphere to all 93 official leagues and international competitions. FIFA 20 has also introduced personalization options: Fans are able to go deeper than ever into their players and determine everything from their ultimate position to their abilities and personal style. In addition to tactical acumen and training methods, fans are also able to control players' physical characteristics such as speed, height, and lean, to deliver the ultimate in player customization. New Play Modes: Complete Season Mode Customize a team from five distinct positions to play a full campaign of the Champions League, English Premier League, La Liga, Liga MX, UEFA Europa League, Serie A and Bundesliga, then compete against them in both offline and online multiplayer modes. Complete gameplay innovations make every match—and every pitch—feel like a new adventure. Ultimate Team: Battle against a team of AI-controlled players to build the best team on your side, or take on the Skills Match, a multi-hour endurance test where you put your Ultimate Team to the ultimate test. With so much to master across the most important game modes in FIFA, the game has been redesigned for maximum replayability. Pro Seasons: Now, for the first time in the series' history, fans can experience the rhythm of real-world soccer on an unprecedented scale. Featuring 24 official leagues and international competitions, Pro Seasons provides new challenges on all fronts and can be customized to fan specifications with numerous options, including custom weather, seasons, and more. Dynamic Tactics: Re-engineer play in five new tactical categories, including new Defending Mastery, Defensive Maneuver, Midfield Solver, Counter-Attacking Tactics and Long-Ball Specialists. Not only do these advances create totally new ways to play, they also have a significant impact on player positioning, making every team's brand of soccer unique to the way they play. FIFA Ultimate Team: Customize and expand your Ultimate Team with up to 32 players, then play solo or compete head-to-head in bc9d6d6daa
