They can not be used for free. The easiest hack you can do in RuneScape is the ability to become a level 90 player while maintaining your current level. Acquiring this skill is rather easy, so make sure you avoid taking damage to the point where you lose a level.. The default gm is a character called a hack, a player can automatically hack any character in a town or party, allowing you to gain levels faster and actually gain XP. Players can also use a hack to free slaves. All free hacks are pre-mades, though you can make your own if you want a type not available. Character classes are locked and require a hack to bypass. The higher you bid, the higher the price. Some items like full sets of equipment can be worth thousands of gold. Players who know how to use a hack can benefit from this because it's the cheapest way to level up, so it's actually more profitable than doing the in-game method. The drawback to this method is that not all the in-game servers will work with
