Photoshop, or Photoshop Elements, is also available as a free download from the Adobe website. Depending on your task and your skill level, Photoshop has many features and functions. It's the equivalent to the Swiss Army Knife for the graphic arts, in that it has a powerful set of tools in it that do just about anything you ask for. To master Photoshop, however, you first have to figure out what it actually does. In this book, I cover Photoshop as it relates to raster image editing. In Chapter 14, I have a more in-depth look at the digital arts. I also cover Photoshop (and Elements) in the Adobe InDesign series of books (you can read more about them at 'www.flip-codes.com/books/idbooks/', with new books regularly added and even a special deal on the book you're reading now). # GETTING STARTED WITH PHOTOSHOP Photoshop, or Elements, makes working with raster images more intuitive and convenient. In fact, I recommend that you get started with an image-editing program first. Because raster images are made up of pixels, you can't do anything to an image that's not already present, so you first need to tell the program what you want to do. This process of _opening_ an image is just as important as the editing process. In the top left of the Photoshop window is a menu bar with options to open, save, and save as. Figure 4-1 shows the open dialog box for a digital camera RAW file (or any RAW file). *Figure 4-1:* To open an image in Photoshop, use the Open dialog box. So how do you get an image into Photoshop? As with nearly everything else in the computer world, you have choices, but the most common options to get from your digital camera to Photoshop are as follows: * Using a card reader attached to your computer (remember, an SD memory card fits right into an SD reader slot on the computer). You have to place the camera card in the computer card reader and then run the Photoshop application. * Over WiFi (WiFi in case you didn't get that). If you're OK with wireless networking, you can share your image, or as Adobe calls it, place the _photo in a web folder. I like to do this whenever I want to share something on a website. Connect your camera

35 F.Supp.2d 915 (1999) Paul CULMER, as Trustee in Bankruptcy of Bankrupt, James T. GALEN, d/b/a Images, Plaintiff, v. SANGAMON COUNTY, Defendant. No. 98-CV-1074-JAG. United States District Court, D. Oregon, February 1, 1999. Patrick S. Dougherty, Law Office of Henry M. Johnson, Seattle, WA, for plaintiff. *916 Stephen C. Robinson, House, Goggins & Roberts, P.C., Springfield, OR, for defendant. OPINION AND ORDER GILLETTE, District Judge. The plaintiff, as trustee in bankruptcy for the debtor, James T. Galen, d/b/a Images, filed this action pursuant to 28 U.S.C. § 1334 against defendant Sangamon County, Illinois, seeking a declaratory judgment that certain real property located in Sangamon County is owned by Galen and not by the defendant. This case was previously assigned to the Honorable James A. Redden. The plaintiff moved to dismiss the case, contending that the bankruptcy court lacks jurisdiction because the property in question is not a part of Galen's bankruptcy estate. Judge Redden considered the motion and concluded that the issue should be resolved by the United States Bankruptcy Court for the District of Illinois. I subsequently referred the case to the Bankruptcy Court for the District of Illinois. Upon motion of the plaintiff, the Clerk of the Bankruptcy Court dismissed the case without prejudice to the plaintiff's ability to reinstate the action in the appropriate district or bankruptcy court. On November 18, 1998, the Clerk of this Court forwarded to the Clerk of the Bankruptcy Court a notice of dismissal and order of dismissal entered in the Bankruptcy Court. The attached order indicates that the United States Bankruptcy Court for the District of Illinois entered its order and order of dismissal pursuant to a motion to dismiss filed by the defendant Sangamon County. Attached to the notice of dismissal is a certified copy of the order of dismissal. Having received the Court's order and the attached notice of dismissal and order of dismissal, the Clerk of the Bankruptcy Court entered an order of dismissal. Pursuant to Rule 4(c)(2) of the Bankruptcy Rules, "a notice of dismissal operates as an adjudication
