KASUR: Police on Thursday detained a judge of a local court while he was in his car at Meeran Chowk here. The judge, Shabbir Sandhu, who was flying a Pakistani flag along with him, was on his way to buy medicines in the city when he was intercepted. He was arrested for raising Pakistan's flag and 'wearing Pakistani dress'. "The judge was caught at Meeran Chowk while in his car wearing his judge's dress. He was being driven by an activist from Dalhousi town," said a senior police official. "During interrogation, the judge said he was only going to buy medicines in Meeran Chowk as some exams were held in his court yesterday and he was feeling worried about his children. His passport was with him and the police did not find any case against him." Another case was registered against Sandhu, said the official.

## **Fifa 22 Features Key:**

- New play style and physical intelligence: Players are now more physical than ever before, making them unpredictable and giving you total control of the game. Adapt or die!
- Seamless goal celebrations: Realistic goal celebrations change depending on the animation the player is in. If he scores in his run, he gets on his knees, moves and celebrates; if he does it on the ball, he just raises his hands with a massive smile.
- Player and character animations: A completely new movement system; now gamers can predict the next player's actions before they happen: just when you raise the back of your head, your defender's going to want to jump in front of that ball.
- New tactical lineups: With the introduction of a new tactic that combines a balanced defence and attack together, you can play to your strengths with an improved system that allows you to play a different formation depending on the opposition.
- Interactive Moments - a series of new-look moments influenced by the gameplay feedback of 10 million players, which react to key moments.
- Fewer post-match glitches: Keep your dreams alive, earn your club money and fans with endless amount of new leagues and cup competitions, improve your stadium, unlock special kits, take the team to venues around the world, and create your dream team with the new player creation engine!
- Improved Kick-Off gameplay: New kinds of goals and long-range goals; short corner and long corner goals; and multiple special player combinations.
- Sponsorship: the new Global Club Series does more than just add excitement and sell more. Now fans can vote on new players' abilities, and you'll find out more about the clubs than ever before.
- Bigger set pieces: Just as important as the new point of view camera, make sure you take advantage of every corner and long-range shot in the game!
- Saving and loading in any game mode: It just got easier than ever, with the ability to save and load any ongoing game and keep yourself right where you left off - even if things take a turn for the worse!
